

# SELLIER Céline

## COMMUNICATION OFFICER

I intend to focus on content writing (web, print, multilingual) as the heart of all my activities. I am convinced that this is the area in which I have expertise. However, I am eager to learn and develop a wide range of skills because I am curious, I seek enrichment and I believe this will be an asset for companies that hire me. Thanks to a bachelor's degree in Applied Foreign Languages, a master's degree in Multimedia Communication and a one-year experience as a Communication Officer (work-study program), I feel confident in various missions, each more interesting than the other: community management, webmastering, content optimization (SEO), localization, etc.
